The Principal/ Directors,
PTU Affiliated colleges

Subject: Industry Defined Projects (IDP)

Sir,

Industry defined projects (IDP) aims to channelize the energy and time of the students towards innovative projects which would encourage them to work on industry defined projects. A final year student has to work on a major project in the final year of his/her B-Tech program, as per the course curriculum. In this, students will approach to an industry. She /He will take a Problem of industry as industrial project and work on this project to have solution of the project. PTU can sponsor such 1000 projects, it is proposed. The grant provided to each project would be limited to maximum Rs. 25,000. This scheme will promote students to work on real problems and in future industries may approach to PTU to have solution to their problems.

The guidelines and performa of application of Industry Defined Projects (IDP) is enclosed.

You are requested to circulate it among your faculty members and place on notice boards.

With best regards

Anirudh P. Singh

Dean (Student Affairs)

INDUSTRY DEFINED PROJECT STATEMENT FORM
TITLE OF PROJECT

DISCIOLINARY / INTER-DISCIPLINARY	DISCIPLINE
----------------------------------------------	-------------------

PROJECT SUMMARY

- The project summary may be a concise description of the industry related technical issues which can state the problem, which the student has found out by visiting the industry.

DETAINED DESCRIPTION OF PROJECT

- The project statement has to be well defined in 3-5 pages with detailed facts and figures as and when possible. The description can have figures/inputs from floor persons from industries/ parameters related to specific domain of technology.

EXPECTED OUTCOME

- The students while interacting with industry persons have to note down the expected out comes (in 1-2 page) from that particular industry due to the proposed innovation either in product or processes. This will gauge the industrial needs and students progress while working on the final year project.

OTHER DESCRIPTION (IF ANY)

- The students are advised to do some literature research related to the corresponding project/ innovation both before and after visiting the industry / MSME including summer vacation. They have to suggest some suggestions about the issues based on literature research of corresponding projects in feasible cases.

The format of documentation may be slightly modified as per the need of specific branch. For example in the documentation of any industrial waste, one may have to state (Composition of waste, type of waste (Solid, Liquid, Gas, Semi-Solid), quantity of waste etc.
